

A few more Foxy facts before taking a breather

DOWN TIME: The Terrier is taking a bit of a breather, to recharge and refuel.

Foxy, however, has been unable to squeeze two or three timely facts into her doggy bag, so she is leaving them behind.

Here is the first: Moonee Valley Council has 906 full-time equivalent staff. W'bool City Council has 390. MVC has 32 corporate credit cards. WCC has 81.

MVC has a collective limit on these cards of \$269,000. WCC won't reveal its collective limit, but one card alone chewed up \$40,000 in 18 months.

Here is the second: Warracknabeal Council has 104 full time equivalent staff and one credit card. The annual spend is \$9000.

(Thanks to Ratepayers Victoria for passing on these two facts – RV is asking all councils how many cards they have, and

their annual spend.)

And here is a final fact: the \$1476 dinner at Pippie's was a Sister-City function for Miura, Japan, says Cr Mike Neoh, who was part of that event. Cr Neoh says he paid \$83 toward the final bill that more than covered his share. (Cr Neoh doesn't drink alcohol).

Even though it was an official council function, Cr Neoh said he decided to pay something. ("Why? Good question. Might be a cultural thing," he said via email.)

An even better question is why, when asked, didn't the council just say it was a Sister City function?

Why all the secrecy and side-stepping?

No wonder Barry needs a break. The Terrier will be back on deck shortly after 5 October, all revved up and ready to roll.

See you then!
